

Upload images in ibm container registry

The screenshot shows the IBM Cloud Object Storage console. The left sidebar contains navigation links: IBM Cloud, Cloud Object Storage, Storage instances, Cloud Object Storage-xi, Buckets (selected), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area displays a table of uploaded objects. Above the table, there is a search bar with the text 'Prefix filter' and an 'Upload' button. A message at the top of the main area states: 'If you're seeing more usage than expected, versions count towards your usage or you may have incomplete uploads [Learn more](#)'. The table has columns for 'Object name', 'Archived', 'Size', and 'Last modified'. It lists six objects, all named 'im...jpg', with sizes ranging from 2.5 KB to 6.7 KB, all uploaded on 2022-11-01 at 7:18 PM. A 'st...CSS' file is also listed at the bottom. Below the table, there is a 'Drag and drop files (objects) here or click to upload' instruction and another 'Upload' button. The Windows taskbar at the bottom shows the search bar, task view, and various application icons, with the system clock indicating 06:59 PM on 14-11-2022.

<input type="checkbox"/>	Object name	Archived ^①	Size	Last modified
